

# WRIT 101: Communication Skills

This course provides students with opportunities to practice a range of conventions, standards of proof, and ways of knowing that characterize language in the concentration areas that make up the SUA liberal arts education: the humanities, environmental studies, social and behavioral sciences, life sciences, and international studies. In the process, students develop critical reading and thinking skills as well as competence in written and oral English so as to produce coherent, interesting, thoughtful, and largely error-free papers that are congruent with appropriate standards of academic discourse.
