INTS 385/ANSO 385: Race and Ethnicity

This course examines anthropological and sociological perspectives of race and ethnicity. Drawing on studies from many different parts of the world, the course explores the nature of ethnic identity, the cultural construction and social meaning of race, the dynamics of race relations and ethnic stratification, and current theories of ethnic conflict and minority rights. The aim of this course is to develop the theoretical tools for comparing the politics of identity and cultural and racial difference cross-culturally and to be able to think critically about our own common sense understandings of race and ethnic relations.
