

Information Technology Services

Information Technology Services (ITS) provides all technical services, support, and systems to meet the varied needs of a liberal arts university. The primary areas of responsibility include end-user technical support, instructional technology services, audio-visual (AV) multi-media services, academic, and administrative information systems and support. ITS manages and maintains all campus network, compute, and telecom infrastructure and provides email, file, print, telephony, and end- user support services. ITS manages and maintains all campus high speed wired and wireless internet access and network access control.
