

CARTS 150: Introduction to Photography

The objective of this course is to introduce students to the fundamental skills necessary to visually communicate ideas using photographic processes. These skills include technical proficiency, knowledge of the characteristics of photography which distinguish it from other media, and a cognizance of the role of the diverse uses of photography and their implications in society. Students are given the opportunity to explore their personal creativity by developing a final project of their own choosing within the larger context of the photographer as a responsible global citizen. This course is open to all students, regardless of previous experience in this medium.

Units: 3

Program: [Photography](#)
